

## ***Photovoltaic Task Force Establishment***

ITOCHU Chemicals America Inc. is proud to announce the establishment of its Photovoltaic Task Force. It is our goal to work closely with our partners and to provide a comprehensive line of specialized raw materials to this industry.

ITOCHU is aggressively pursuing photovoltaic and other clean energy technologies worldwide.

In Norway, ITOCHU Corporation has invested in NorSun, a monocrystalline silicon wafer manufacturer and Scatec Solar AS, the country's leading solar system integrator.

In the United States, ITOCHU Corp. and ITOCHU International Inc. have acquired Solar Depot, a designer and distributor of photovoltaic power generation systems. ITOCHU will continuously endeavor to create a value chain of solar energy business and aim to contribute to a renewable energy society.

Committed to the global good.
